

storing the modified menu data locally;
receiving requests for the modified menu data from the self-service computers; and
serving the modified menu data to the self-service computers in response to the requests.

19. The method of claim **13**, wherein
making the modified menu data available includes sending the modified menu data to the self-service computers for

storage by the self-service computers following modification of the received menu data.

20. The system of claim **1**, wherein the computer stores modifications made to the received menu data in a modification log and automatically compares modifications for subsequently received menu data to the modifications stored in the modification log to determine if the modifications have been previously made.
